

We are a small business that provides **systems engineering, DevSecOps, Global Mission Support, and Software Defined Radio (SDR)** solutions at several operating locations including Virginia, Maryland, Florida, Colorado, and overseas.

Our mission is to **exceed requirements and increase efficiency** for our customers using **innovative solutions**.

Our core values include:

- **Honest** in everything we do, all the time. No exceptions.
- **Accountable** for what we say we'll do. It's that simple.
- Willing and ready to **go the extra mile** for our customers.
